

Weekly Radiation Survey Checklist

Instructions: A survey of your laboratory must be performed at least weekly when working with loose radioactive materials. Use this check-off list to indicate when a survey was performed for the listed week. Records of the survey results should be kept in your Radiation Safety Lab Notebook. If no radioactive materials were used for the week, write "N/A" in the "Date Done" section.

This sheet may either be posted in the laboratory or it may be kept in the Radiation Safety Lab Notebook. Completed sheets should be filed in the Radiation Safety Laboratory Notebook.

Year: 2016
